## 2009 COMMODITY INSURANCE FACT SHEET

# Barley

## Montana, North Dakota, South Dakota, Wyoming

### Crop Insured

The crop insured will be barley (including hull-less barley) planted for harvest as **grain**. Any acreage planted to hay barley varieties is not insurable, unless grown for harvest and sale as seed.

### Counties Available

**Montana**—All but Lincoln

**North Dakota**—All counties

**South Dakota**—All counties

**Wyoming**—All but Albany, Sublette, Sweetwater, Uinta, and Weston

### Causes of Loss

- Adverse weather conditions
- Earthquake
- Failure of irrigation water supply<sup>1</sup>
- Fire
- Insects<sup>2</sup>
- Plant disease<sup>2</sup>
- Volcanic eruption
- Wildlife

<sup>1</sup>If caused by an insured cause of loss occurring during insurance period.

<sup>2</sup>But not due to insufficient or improper application of control measures.

### Insurance Period

Coverage usually begins when the barley is planted and ends at the earlier of the following:

- (1) total destruction of the barley on the unit,
- (2) harvest of the unit,
- (3) final adjustment of a loss on the unit, or
- (4) October 31, 2009.

Note: Any acreage of barley damaged before the final planting date, to the extent that producers in the area would not normally further care for the crop, must be replanted to an appropriate type of barley unless the insurance provider agrees that replanting is not practical. A replant payment may be available.

### Reporting Requirements

**Acreage Report**—You must report all acreage of your barley, both insured and uninsured, to your agent by the acreage reporting date.

### Important Dates

Sales Closing .....	March 15, 2009
Production Reporting .....	April 29, 2009
Acreage Reporting .....	June 30, 2009

### Definitions

**Production Guarantee** — Number of **bushels** guaranteed per acre determined by multiplying your average yield per acre (based on your records) times the coverage level you elect.

**Production Reporting Date** —The date you must report your production for the previous crop year to your agent.

**Price Election** — To Be Announced — the price basis used to calculate premium and indemnity.

### Duties in the Event of Damage or Loss

- (1) Protect the crop from further damage by providing sufficient care;
- (2) notify your agent within 72 hours of your initial discovery of damage (but not later than 15 days after the end of the insurance period); and
- (3) leave representative samples intact for each field of the damaged unit.

### Available Options

**Malting Barley Price and Quality Endorsement**—For additional premium, provides additional coverage for malting barley production and quality based on Federal or brewery/maltster standards at an additional value price election, depending on the option selected. Application for the endorsement and selection of an option must be made no later than March 15, 2009.

## Coverage Levels and Premium Subsidies

Coverage levels range from 50 to 85 percent of your average yield. For example, an average yield of 40 bushels per acre would result in a guarantee of 30 bushels per acre at the 75-percent coverage level. Crop insurance premiums are subsidized as shown in the following table. For example, if you select the 75-percent coverage level, your premium share would be 45 percent of the base premium:

Item	Percent							
Coverage Level	50	55	60	65	70	75	80	85
Premium Subsidy	67	64	64	59	59	55	48	38
Your Premium Share	33	36	36	41	41	45	52	62

Catastrophic (CAT) coverage is fixed at 50 percent of your average yield and 55 percent of the price election. The cost for CAT coverage is an administrative fee of \$300, regardless of the acreage.

## Insurance Units

Your insurable acreage will be grouped into one or more units in order to establish the approved yield, calculate a guarantee, and determine any indemnity.

**Basic Unit:** A basic unit includes all of your barley acreage in the county by share arrangement.

Premiums are reduced by 10 percent for a basic unit.

**Optional Units:** If a basic unit consists of two or more sections or irrigated and non-irrigated acreage and certain record-keeping criteria are met, you may apply for optional units. The 10-percent discount will not apply.

**Enterprise Units:** Includes all insurable acreage of barley in the county (in which you have a share) as a single unit, if requested by the sales closing date and certain criteria apply. An enterprise discount, which varies by number of acres insured, applies in addition to the 10-percent discount for basic units.

## Insurance Plans Available

**APH** — Actual production history (This fact sheet is based on the APH plan. Other plans may have differences.)

**IP** — Income protection: MT (except Lincoln County), ND, select counties in SD

**RA** — Revenue assurance: MT (except Lincoln County), ND, SD

A request to change insurance plans must be made to your agent no later than March 15, 2009.

## Where to Purchase

All multi-peril crop insurance, including CAT coverage insurance policies, are available from private insurance agents. A list of crop insurance agents is available on the RMA Web site at: <http://www3.rma.usda.gov/tools/agents/>
